### **EMERSON BRIDGE ELECTRICAL DISCONNECT REQUIREMENTS**

The 4160 volt, service entrance, non-grounded conductors require an over-current protective device at the location where they enter Piers 2 & 3 electrical rooms. The requirement is to install a 200amp, 5kV rated, 3 pole fused disconnect switch rated to protect the downstream distribution transformers T-1, T-2, T-3 and T-4. Each fused disconnect shall be located at the location where the 4160 volt service entrance cables enter the electrical room and be accessible. Per NEC article 450.3 (A) the maximum allowable protective device rating at the primary of each service entrance transformer is 250% of the rated transformer primary current. This is based on the classifying the electrical room as a supervised space allowing only qualified personnel to maintain the electrical equipment. It is recommended that 15 amp fuses at each service entrance for Piers 2 and 3 will for maximum output of each distribution transformer while providing electrical system permits downstream fuses to trip before the upstream fuses located at the utility metering pole. This will isolate the electrical system fault and minimize the affects of an electrical outage experienced on the bridge. Refer to Appendix V for a proposed one-line diagram which indicates the locations of the proposed service entrance disconnects with integral fusing illustrated in bold type.

Minimum clearance in front of the fused disconnect shall be 5 feet which is measured from the front face of the disconnect to any grounded surface or concrete wall per the NEC table 110.34(A). If there is a potential of live exposed parts on the opposite side of the disconnect, then the distance must increase to a minimum of 6'-0". Refer to Appendix V for a one-line representation of the lighting distribution system modifications symbolizing the recommended new equipment in bold type. Each disconnect should include a warning label to note the operating voltage, its function as a service entrance disconnect and arc hazard warning label with personal protection equipment requirements.

check within **15 days** after the contract has been mailed to the bidder shall be just cause for the cancellation of the award and the forfeiture of the proposal guaranty. Award may then be made to the next lowest responsible bidder, or the work may be re-advertised and performed under contract or otherwise, as the Commission may decide. No contract shall be considered effective until it has been executed by all parties thereto.

- e. Contractor will not be required to provide dozers, loaders, motor graders, or other equipment for shaping of stockpiles, constructing ramps or runways, or leveling of the top of a completed lift, unless otherwise noted herein.

#### Incentive for Accelerated Delivery

- a. If, prior to the delivery deadline, the Contractor's average daily delivery rate **exceed 1,250 tons** for the total award, the Contractor will be paid an incentive for accelerated delivery in the amount of **2%** of the weighted average bid price per ton for the total tons delivered exceeding **1,250 tons per day**.

##### **EXAMPLE:**

Total Tons of Award	20,000 tons
Total Value of Award	\$107,200
Number of Days for Delivery from 2 sources at same time	5 days
Total number of delivery days	2 x 5 = 10 days
Average bid price per ton = \$107,200	20,000 tons = \$5.36 per ton
Average daily delivery rate = 20,000 tons	10 days = 2,000 tons per day
Daily tonnage Supplier due Incentive Pay = 2,000 tons - 1,250 tons = 750 tons per day	
Total tons delivered exceeding daily min. rate = 750 tons x 10 = 7,500 tons	

**INCENTIVE PAY = 0.02 x \$5.36/Ton x 7,500 Tons = \$ 804.00**

- b. Delivery from two sources on the same day to one or more maintenance sites will be counted as two days of delivery. Delivery from three sources on the same day to one or more maintenance sites will be counted as three days of delivery, etc.
- c. The average daily delivery rate is the total tons per award to a supplier divided by the number of days used to deliver the material. The weighted average bid price per ton is the total value of the award divided by the total tons per award.
- d. No incentive for accelerated delivery will be paid to a Contractor who is being charged liquidated damages on any item in the same award.

#### Legal Weights

- a. Provisions of the Missouri Statutes relative to legal weights in regard to axle and gross weights, gross weights in relation to axle spacing and Supplementary Bridge limits all contained in **Sections 304.180 and 304.190 RSMo** are understood and will be abided by. The Department will not accept loads, which exceed legal weights.
- b. It is understood and agreed that the Missouri Department of Transportation may prohibit the use of large trucks hauling heavy loads of material over low type bituminous roads and during adverse weather conditions.

#### Increase or Decrease Quantities

- a. The Highways and Transportation Commission reserves the right to increase or decrease the quantity of material twenty-five percent (25%), subject to the maximum quantity specified by the bidder in his proposal.
- b. The quantity finally ordered by the Commission will be furnished by the bidder at the same unit price per ton.

#### Basis of Measurement for Payment

- a. For truck delivery, the quantities for basis of payment are to be determined as provided in **Section 310.4 of the Missouri Standard Specifications for Highway Construction, Edition of 2004**, and any revisions thereto.
  - 1) Measurement will be to the nearest **100 lbs.** for each load when the measurement is by weight.
  - 2) Moisture tests will be rounded off to the nearest **0.5 percent** for purposes of computing the deduction for excess moisture.

#### Temporary Suspension of Work

- a. The **District Engineer** shall have authority to suspend work wholly or in part for such period or periods as may be deemed necessary when weather or other conditions are such that in the opinion of the engineer, the work may be done at a later time with advantage to the Department or for failure on the part of the Contractor to comply with any of the provisions of the Contract.
- b. If the Department suspends the work for its own advantages and not because of the Contractor's failure to comply with the Contract, the Contractor will be allowed an equal number of calendar days after the completion date for the completion of the work. The Department may at its discretion give the Contractor an extension of time for completing the work where the Contractor incurs delays for causes beyond his control.
- c. Normal rainfall is not considered a cause qualifying for an extension of time. Claim for extension of time for all causes must be submitted by the Contractor in writing within **30 Days** after the claimed cause for the delay has ceased to exist.

#### Cancellation of Contract

- a. If the Contractor/supplier fails to carry out the performance of the work with sufficient workmen and equipment to insure the completion of the delivery within the time specified or becomes insolvent or is adjudicated a bankrupt or commits any act of bankruptcy or insolvency or allows any final judgment to stand against him for a period of ten (10) days, the Missouri Department of Transportation may give notice in writing by registered mail to the Contractor/supplier and the surety of such delay, neglect or default.
- b. If, within ten (10) days after such notice the Contractor/supplier does not proceed to remedy to the satisfaction of the Department's representatives the faults specified in said notice, or the surety does not proceed to take over the deliveries, the Department shall have full power and authority, without impairing the obligation of the Contractor/supplier under the contract or the surety under the bond, to take over the completion of the work and arrange for the shipment of any materials necessary to complete the work and the Contractor/supplier and the surety will be responsible for any additional costs incurred by the Department in obtaining the completion of the deliveries.

#### Liquidated Damages

- a. In the event the successful Contractor fails to deliver the material within the time specified, the Department and the public will sustain damages because of such delay in delivery, the exact extent of which would be difficult to ascertain, and in order to liquidate such damage in advance it is agreed that the **sum of one-hundred dollars (\$100.00) per day, per item**, for each assessable calendar day on which the delivery has not been completed, is reasonable and the best estimate which the parties can arrive at as liquidated damages, and it is therefore agreed that said amount will be withheld from payments due the Contractor or otherwise collected from the Contractor as liquidated damages.
- b. **Saturdays, Sundays, holidays and days whereas the Department has suspended work** shall not be assessable days.

#### Environmental Issues

- a. Attention of the bidder is invited to the **Land Reclamation Act, Chapter 444, Laws of 1971, (House Bill 519)** and the necessity for compliance if applicable.
